

**Empower. Excel. Expand.** GroundWork embraced these tenants when building GroundWork University. Whether you are in the United States, Europe, UK, Asia, or anywhere else in the world, GroundWork can deliver training to you.

With GroundWork’s combined years of experience numbering into the thousands, our expertise ranges across both technological infrastructure fronts and industry sectors, and we are eager to share our knowledge with you to ensure success.

**EMPOWER**

GroundWork’s goal through training is to empower our customers, our partners, and our growing community to achieve maximum return on their investments with GroundWork.

**EXCEL**

Once empowered, you will excel in maximizing the efficiency and cost savings of your network infrastructure utilizing GroundWork solutions. And GroundWork will continue to help you along the way should you need assistance.

**EXPAND**

Expand the depths of your GroundWork training through GroundWork University. With GroundWork solutions implemented around the world, a wide variety of training is available through various avenues, including:

- Classroom Learning
- On-site Learning
- E-Learning
- Continuing Education
- Partner Training

**KEY BENEFITS**

- Learn about GroundWork Solutions from any location at any time.
- Extend your GroundWork education and knowledge with new courses geared for both novice and advanced users.
- Lower costs and increase ROI with the additional training sessions made available and the specialized courses geared for customized solutions.

**GROUNDWORK OPEN SOURCE**  
 139 Townsend Street, Suite 100  
 San Francisco, CA 94107

**CLASSROOM LEARNING**

Come to GroundWork’s corporate office in San Francisco for hands-on training for GroundWork Monitor Professional. Lectures and hands-on lab exercises provide the best combination of training.

**ON-SITE LEARNING**

On-Site Training is available for both customers and partners and covers the same material as class room training offered at GroundWork’s headquarters. GroundWork will work with companies to ensure that all training room requirements are in place prior to the actual session.

**E-LEARNING**

Live online classes (lead by an instructor) or On-Demand classes are your options here. Whether you want to have an actual instructor present during the training session or if you want to go at your own pace with online training modules, the choice is yours.

**CONTINUING EDUCATION**

Build upon your GroundWork knowledge foundation with continuing education courses. In order to stay on top of the latest trends, you need to keep your skills honed. Courses here are tailored for advanced end user training and require participants to have attended the GroundWork Monitor System Administrator’s class.

**PARTNER TRAINING**

GroundWork Partner Program includes training and certification to ensure that partners are equipped to market and deliver GroundWork solutions and services to their respective channels.

Learning Channel	Training Description	Material Covered	Benefits
Classroom Learning	<ul style="list-style-type: none"> <li>• Hands-on training at GroundWork’s office</li> </ul>	<ul style="list-style-type: none"> <li>• GroundWork Monitor Professional System Administrator’s Course</li> </ul>	<ul style="list-style-type: none"> <li>• Best combination of training with lectures &amp; hands-on lab exercises</li> </ul>
